Candidates for semester/partial, full BA, MA and PhD studies must contact the desired host institution in Croatia and secure a provisional Letter of Invitation by the Croatian higher education institution in which it is indicated that the applicant can enrol in the desired tuition-free study programme upon successful completion of the enrolment procedure and being awarded the Scholarship.

Successful applicants will be granted a Scholarship for a full cycle of undergraduate or graduate studies that will be renewed every year pending academic success.

Only members of the Croatian minority in Hungary, Romania and Slovak Republic and citizens of China may apply for Scholarship types B and C1. Also, scholarship holders should arrange and cover the costs of health care by themselves if they come from a country that doesn't have a signed bilateral health care agreement with Croatia and do not have the right to the European Health Insurance Card (EU nationals). Upon arrival to Croatia, scholarship holders should request an OIB (Personal Identification Number – Croatian Tax Number) at the local Tax Administration Office and after that open a giro bank account at any bank and send by e-mail a scan or photo of the documents containing the OIB and IBAN to the Agency. Each scholarship holder is obligated to stay in Croatia throughout the scholarship programme (except in cases of virtual or blended mobility) and be engaged solely in the programme which has been approved by the Ministry and the Agency. Absence is justified for three (3) consecutive months (during summer) for full degree studies. In case the scholarship holder needs to be absent for a longer period, he/she should inform the host institution and the Agency. If the scholarship holder leaves Croatia without a valid reason and without notifying the Agency, the Scholarship can be suspended/terminated and the grant can be reclaimed. 9.2. Visa

Information about the conditions of entry and residence of foreign nationals in Croatia is available on the [website](#) of the Ministry of Foreign and European Affairs. For the most current information regarding entry and visa regulations between a certain country and Croatia, the applicants should enquire at the Croatian Embassy in their home country or at the national ministry of foreign affairs. Visas are issued by diplomatic missions or consular offices of the Republic of Croatia. Any visa related costs are not covered by the grant.

9.3. Entering Croatia and the COVID-19 Pandemic

The Call for Applications is addressed to all countries regardless of the COVID-19 pandemic but the Scholarships will be awarded subject to the rules in force and various other conditions such as the health situation, visa procedures, opening of borders and operating of higher education institutions and institutes. All mobilities are planned to be physical mobilities but depending on the developments of the COVID-19 situation the Croatian higher education institutions and institutes may be forced to offer online-classes. Physical mobility remains the goal of the programme but if it is not feasible, blended or entirely virtual mobility will be eligible. Before travelling, scholarship holders are advised to check if there are any restrictions to travelling set in force by their home countries or/and Croatia that would prevent them from leaving their home country or from entering Croatia. The [website](#) of the Croatian Ministry of the Interior contains the latest information in connection to entering Croatia as a foreign citizen and is being continuously updated. It also explains the conditions of entry into Croatia considering the restrictions in place to prevent the spread of the COVID-19 and the situation is constantly being reassessed. [KORONAVIRUS.HR](#) is the official Croatian Government website for accurate and verified information on the Coronavirus in Croatia. Maps in support of the Council Recommendation on a coordinated approach to the restriction of free movement in response to the COVID-19 pandemic in the EU/EEA are published on the official [website](#) of the European Centre for Disease Prevention and Control. You can also check the [Re-open EU](#) portal, i.e., an interactive tool launched by the European Commission that provides information on how to travel Europe safely.

10) HEALTH CARE DURING MOBILITY IN CROATIA

According to the Croatian Law on Foreigners, foreign residents must have health care during their stay in Croatia. For both EU/Swiss and non-EU citizens health insurance is also necessary for the approval of temporary stay. Regulated health care is the prerequisite for being granted a temporary residence permit.

10.1. EU Nationals

EU countries residents are obligated to obtain the European Health Insurance Card ([EHIC](#)) in their home countries prior to their arrival to Croatia. The EHIC is issued by the national health insurance provider. Scholarship holders who are awarded a Scholarship for full degree mobility in Croatia can, in accordance with the Regulation (EC) No 883/2004 of the European Parliament and of the Council of 29 April 2004 on the coordination of social security systems, transfer their health care from their home countries to Croatia and have complete health care during their mobility in Croatia. This applies only to EU nationals who are

awarded a Scholarship for full degree BA, MA or PhD studies (Scholarship types B and C1) in Croatia and who can provide proof of having health care in their home countries.

10.2. Countries with Health Care Agreements with Croatia

Croatia regulates health care with North Macedonia, Montenegro and Turkey through agreements on social security signed with the named countries. Citizens of these countries should contact their public health insurance provider before arriving to Croatia in order to obtain the document which enables them to have health care during their mobility in Croatia.

10.3. Countries without Health Care Agreements with Croatia

Scholarship holders coming to Croatia on mobility from countries that do not have bilateral health care agreements with Croatia or do not use the European Health Insurance Card are obligated to organise and cover the costs of health care services during their mobility in Croatia by themselves. The Agency covers the health insurance expenses for scholarship holders from countries which do not have social security agreements with Croatia only if foreseen in a valid/effective bilateral educational co-operation programme.

11) PERSONAL DATA PROTECTION

The Department for Higher Education at the Agency is processing the personal data of applicants for the purpose of evaluating the applications for the Scholarships. More detailed information on processing of personal information is available in the General Notice on Processing of Personal Data published [here](#). Provision of data is voluntary but necessary for application and to participate in the implementation of the Scholarships. By submitting an application all candidates acknowledge that their personal data provided in the application and attachments submitted for the purpose of selection proceedings as well as for the purpose of later nomination, will be processed by the national competent authorities and by the appropriate host higher education institutions in Croatia to the extent that is necessary to address the application. Personal data may be provided to diplomatic posts, foreign partner institutions or Croatian higher education institutions and research institutes and/or other partners relevant to the implementation of the Scholarships. The data will be used for conducting the Call for Applications and evaluation of applications, selection of the beneficiaries and execution of scholarship agreements. This will be done in compliance with the regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and of the free movement of such data, and repealing directive 95/46/EC (General Data Protection Regulation).
